Jika Form berhasil disubmit akan muncul notifikasi (panah putih) dan data akan langsung masuk ke tabel request data (panah merah).

If the form is submitted successfully, a notification will appear (white arrow), and the data will go directly into the request data table (red arrow).

フォームの送信が成功すると、通知が表示されます（白い矢印）そしてデータはすぐにリクエストデータの表に追加されます（赤い矢印）。

Request for Service

The screenshot shows the SAP Fiori Request for Service application. At the top, there's a navigation bar with icons for search, refresh, and help. The main title is "Request Data" and the sub-section is "List of Request". A "Create" button is located in the top right corner. On the left, there's a sidebar with various icons. The main area displays a table titled "List of Request" with the following columns: Request Date, Name, Priority, Req. Description, Status, and Action. The "Action" column contains three buttons: "View", "Accept", and "Reject". Three white arrows point to the "Accept" and "Reject" buttons in the "Action" column of the fourth row. The table has 10 rows of data, each representing a request with details like date, name, priority, description, status, and action buttons.

Request for Service
Fill this form below to request a service

Ada 3 button pada kolom Action yaitu View, Accept, dan Reject. View akan muncul disetiap request di semua level akun, dan digunakan untuk melihat detail request. Sedangkan Accept dan Reject hanya muncul di akun level superior, dan digunakan untuk menerima atau menolak request.

There are three buttons in the Action column: View, Accept, and Reject.

The View button appears for every request on all account levels and is used to see the request details.

The Accept and Reject buttons only appear on superior-level accounts and are used to approve or reject requests.

Action 列には **View**、**Accept**、**Reject** の3つのボタンがあります。

View ボタンはすべてのレベルのアカウントで各リクエストに表示され、リクエストの詳細を確認するために使用されます。

一方、**Accept** と **Reject** ボタンは上位レベルのアカウントにのみ表示され、リクエストを承認または拒否するために使用されます。
